### ***2021-2022***

#### **1. INTRODUCTION / HISTORY / OVERVIEW:**

At the December 2012 USD 248 Board of Education meeting, Girard school board members approved the recommendation of new superintendent, Blaise Bauer, to purchase 748 iPad Minis. Beginning in August 2013, all students in grades 5-12 will be issued an iPad Mini to be used throughout the school year. The student will have the option to take the iPad home each evening if their parent chooses to pay an annual technology fee. In grades K-4, each grade level will have one cart of iPad Minis.

The recommendation by Mr. Bauer was based on approximately six months of research conducted by the Girard iPad Steering Committee. The committee, headed by Tech Director Rick Duling and Middle School Principal Randy Heatherly, visited schools currently using iPad devices, participated in Apple training and other workshops, and conducted pilot studies in each of the three buildings during the 2012-13 school year.

After the iPad initiative was approved by the school board, the administration and steering committee turned the focus to providing quality staff development to teaching staff in order to prepare them for the August 2013 deployment. Additionally, the steering committee developed the following iPad Policies and Procedures Policy after reviewing policies from several current 1:1 schools.

Our steering committee, teaching staff, and school board are very excited about this iPad Initiative and believe the integration of this technology into everyday teaching and learning will have a tremendous positive effect on student learning in our school district.

Our 2<sup>nd</sup> cycle began in August 2016 with the purchase of new iPad Pro full-sized 32GB iPad devices with 9.7" screens.

In August 2017, new 5th Generation full-sized iPad devices with 32GB and 9.7-inch screens were purchased for 5th grade students and K-4 carts.

At the February 2018 and May 2018 USD 248 Board of Education meeting, Girard school board members approved the recommendation of superintendent, Blaise Bauer, to purchase 810 6th Generation iPad devices. Beginning in August 2018, all students in grades K-12 will be issued an iPad to be used throughout the school year. The 5th - 12th grade students will have the option to take the iPad home each evening if their parents choose to pay an annual technology fee. In grades K-4, each grade level will be 1:1, with the iPad devices staying at school.

In August 2019, grades K-5 iPad devices will be staying at school. The 6th-12th grade students will have the option to take the iPad home each evening if they choose to pay an annual technology fee.

Beginning August 2020, preschool students will be 1:1. The device will be staying at the school.

#### 4. EQUIPMENT / DEPLOYMENT

Grades PreK-10 Every student will use an Apple iPad 6th Generation 32GB with a protective case.

Grades PreK-12 Every student will use an Apple 12W USB Power Adapter and an Apple 1m Lightning to USB Cable.

Cases – students must use the school provided case unless they are bringing their own device (BYOD).

#### 5. BRING YOUR OWN DEVICE (BYOD)

- 5.1. **BYOD rationale:** We realize that many students already possess their own iPad. We allow students to bring their own iPad as long as it meets the requirements listed below.
- 5.2. **BYOD requirements:** Must be an Apple iPad with at least 32GB, and an operating system of iPadOS 14 or higher. As of May 2021 the iPad Pro (12.9-inch, 11-inch, 10.5-inch, 9.7-inch), iPad 8th generation, iPad 7th generation, iPad 6th generation, iPad 5th generation, and iPad Air (2-4 generation) all meet these requirements. Students choosing BYOD must agree to let our technology department enroll their iPad to work with our Mosyle management system and place the same restrictions as a school device on the BYOD device.

#### 6. TYPE OF USER ACCOUNTS:

##### **The COPPA Act of 1998 (Children’s Online Privacy Protection Act)**

Restricts children under the age of 13 from having most types of online accounts, including email accounts and iTunes accounts. Due to the COPPA Act, iPad devices for students under age 13 must be set up differently than for those students age 13 and older.

##### **6.1. “INSTITUTIONAL” Managed Apple ID (used in grades PreK-12).**

Managed Apple ID for education has 200GB of iCloud storage for student data. All school requested apps and books will be pushed to the device.

##### **6.2. “INSTITUTIONAL” account (used in grades PreK-12).**

The iPad for these grades are set up by the school (institution). All apps will be placed on the iPad by the school. No personal iCloud account will be used or needed.

#### 7. OFF CAMPUS RIGHTS

##### **7.1. TAKE HOME 24/7 ACCESS:**

During the school year, students may use the iPad or a school issued laptop for special courses off campus on a 24 hour/7 day basis if they pay an annual technology fee of \$50. This annual technology fee must be paid at the time of enrollment along with the \$30 school enrollment fee before a device is checked out to the student. Students enrolling during the second semester will be charged ½ of the annual fee (\$25). The administration reserves the right to adjust the technology fee for students transferring in/out of the district during the school year.

To be eligible for 24/7 off campus access, the student must complete all of the following:

- ✓ Have a parent and the student present at enrollment to pick up the iPad
- ✓ Have a parent pay the applicable technology fee and past fees
- ✓ Have both a parent and student sign the iPad User Agreement

##### **7.2. SCHOOL DAY ONLY ACCESS:**

For the students whose parents choose NOT to pay the annual technology fee, an iPad will be checked out on the first day of school and used throughout the school year. However, the iPad must be checked in daily before

leaving school. The iPad will be stored and charged overnight. The student will pick up the iPad the next morning from the designated storage area for use during the school day.

## **8. RECEIVING YOUR iPad/DEVICE & CHECK-IN PROCEDURE**

### **8.1. Receiving Your Device**

- 8.1.1. iPad devices will be distributed during enrollment week in August. Before an iPad is issued to a student, both parent and student must sign an iPad/Device User Agreement.
- 8.1.2. Laptops will be distributed in special courses. Before the laptop is taken home, the student must pay a 24/7 off campus access fee. (One off campus access fee. If a student paid for an off campus iPad fee, then there is no other fee.)

### **8.2. Checking in Your iPad and other devices at the End of the Year**

- 8.2.1. All devices will be returned during the final week of school so they can be checked for serviceability.
- 8.2.2. If a student leaves Girard schools for any reason during the year after being issued a device, the device will be returned at the time of checkout.
- 8.2.3. If a student fails to return the device at the end of the year check-in or upon termination of enrollment in Girard Schools, that student will be subject to criminal prosecution or civil liability. The student will also pay the replacement cost of the device. Failure to return the device will result in a theft report being filed with the Girard Police Department.
- 8.2.4. The student is expected to return the school issued devices, case, and charging adapters to the building principal in satisfactory condition. The student will be responsible for any damage to the device and will be charged a fee for any needed repairs, not to exceed the replacement cost of the iPad.
- 8.2.5. Beginning in August 2016, when students check out their new iPad, they will be given a charging cable and a 12W USB power adapter. They will keep this charging cable and a 12W USB power adaptor for the remainder of the iPad cycle or until their departure from Girard Schools. Students will NOT return the charging cable and the 12W USB power adaptor at the end of each school year. It is the student's responsibility to replace faulty/lost cables or adaptors with Apple Certified charging cables and a 12W USB power adapter from USD 248.
- 8.2.6. Beginning in August 2021, students being issued a laptop for special courses, must return the charging cable with the computer at the end of each school year.

### **9.2. Carrying iPad Devices**

- 9.2.1. A protective case/cover for the iPad is required to help protect the iPad and provide a suitable means for carrying the device throughout the day. iPad devices should always be within the protective case when carried. Students are required to use the school issued protective case unless they are a BYOD user using their own iPad.

### **9.3. Screen Care**

- 9.3.1. The iPad/Device screens can be damaged if subjected to rough treatment. The screens are particularly sensitive to damage from excessive pressure or weight on the screen.

### 10.4. Screensavers/Background Photos

Students will not have the ability to customize their iPad's screen background. Appropriate media will be used. Students are allowed to use screen-locking passcodes. However, care should be exercised if using passcodes. If a student enters incorrect passcodes three times, they should stop and ask the technology department for assistance. The iPad will be disabled if ten incorrect passcode attempts are entered and the iPad will have to be restored to factory settings with loss of personal data.

### 10.5. Sound, Music, Games, or Programs

10.5.1. Sound must be muted at all times unless permission is obtained from the teacher for instructional purposes.

10.5.2. Appropriate music is allowed on the device. Earbuds/headphones may be used in the classroom based upon individual teacher approval. During passing periods, students may not use earbuds/headphones.

**10.8. Personal Devices and iPad Storage**

- 10.8.1. Girard USD 248 will, within reason, provide configuration settings that will not allow inappropriate content/apps/music to be on the device. This does not limit what can be downloaded to the students individual iTunes account or other personal device (iPhone, iPod,...).
- 10.8.2. In the event storage space becomes an issue on individual iPad devices, student music, videos, and photos will need to be deleted. 4GB of storage must be reserved at all times for additional education tools and updating requirements.

**11. MANAGING YOUR FILES & SAVING YOUR WORK**

**11.1. Backing Up Data (Cloud)**

- 11.1.1. Students should save work on the device. It is recommended students regularly back up data. It is suggested the student save school-related data to the Cloud. Limited storage space will be available on the device—Data will NOT be backed up in the event a device has to be re-imaged or restored to factory settings. It is the student’s responsibility to ensure that work is not lost due to mechanical failure or accidental deletion. iPad/Device malfunctions are not an acceptable excuse for not submitting work. The school does not or will not accept responsibility for the loss of any apps or documents deleted due to the necessity of a re-format and/or re-image.

**12. SOFTWARE ON IPAD DEVICES**

**12.1. Originally Installed Software**

- 12.1.1. The apps and operating system originally installed by USD 248 must remain on the iPad in usable condition and be easily accessible at all times. From time to time the school may add additional apps and iOS upgrades.

**12.3. Inspection**

- 12.3.1. iPad/Devices owned by USD 248 – Since these devices are owned by USD 248, the contents of the device may be inspected by school officials at any time. Students should not expect any right or expectation of privacy since these devices are owned by the school and the expectations for appropriate usage have been explained in this policy.
- 12.3.2. BYOD iPad devices – Since these devices are owned by the student and/or parent/guardian, these iPad devices will not be subject to random searches like the school-owned iPad devices. However, much like with student cell phones, the school reserves the right to search devices confiscated due to reasonable suspicion that school policies have been violated or a criminal offense has occurred. If a school policy has been violated or a criminal offense has been committed, the student should understand there is “no right or expectation of privacy”.

**12.4. Software upgrades**

- 12.4.1. Upgrade versions of licensed software/apps are available from time to time. Students may be required to check in their devices, even if it is their own device, for periodic updates and syncing. Operating systems with Apple devices change.

The privilege of using the technology resources provided by the Girard School District is not transferable or extendible by students to people or groups outside the district and terminates when a student is no longer enrolled in the Girard School District. This policy is provided to make all users aware of the responsibilities associated with efficient, ethical, and lawful use of technology resources.
